# Contech 2R Cold Asphalt

## PRODUCT SPECIFICATIONS

- ◆ Fast and clean for long lasting repairs
- ◆ Does not require pre or post treatment of the area to be repaired
- ◆ Applied cold, direct from the drum
- ◆ Easy to use, it does not require special machines or specialised personnel
- ◆ Hardens at atmospheric temperature in contact with the air.

- ◆ Readily compacted with appropriate tools
- ◆ Does not give off unpleasant smells
- ◆ After each use, the product left in the drum can still be used
- ◆ Does not crack, it keeps flexible once hardened
- ◆ Resistant and durable, backed by approved laboratory tests
- ◆ The optimum composition of the product means it adheres perfectly to a variety of materials (cement, concrete, asphalt, wood, iron etc.)
- ◆ The regular quality checks performed on raw and manufactured materials mean we can guarantee the quality and consistency of the product.
